SQL Exercise 3

1. Display all the Supplier names with the initial letter capital.
   select initcap(sname) from s227

2. Display all the Supplier names in upper case.
   select upper(sname) from s227

3. Display all the Supplier names in lower case.
   select lower(sname) from s227

4. Display all the Supplier names padded to 25 characters, with spaces on the left.
   select lpad(sname,25) from s227

5. Display all the Supplier names (with 'va' replaced by 'ta').
   HINT: REPLACE.
   select replace(sname,'va','ta') from s227

6. Execute the above command with the translate function and note the difference in output.
   select replace(sname,'sa','va') from s227   // replace only if pattern with given sequence is found
   select translate(sname,'ar','as') from s227 // replace with given pattern even if search pattern is not in given sequence

7. Display the Supplier names and the lengths of the names.
   select sname, length(sname) from s227

8. Use the soundex function to search for a supplier by the name of 'BLOKE'.
   select sname from s227
   where soundex(sname)=soundex('pareetosh')

9. Display the Supplier name and the status (as Ten, Twenty, Thirty, etc.).
   select sname, to_char(to_date(status,'j'),'jsp') from s227

10. Display the current day (e.g. Thursday).
    select to_char(sysdate,'day') from dual
